Ledgerline matches every invoice with its purchase order and goods receipt before it can be posted. An invoice that fails a check is placed on hold and cannot be paid until the hold is released.

An invoice whose unit price is more than 2% above the purchase order price goes on price hold H-PRC. The tolerance is checked line by line, not on the invoice total.

3.3 Duplicates

The same supplier GSTIN and invoice number in the same financial year is blocked as a duplicate. Two different suppliers may use the same invoice number; the supplier must always be confirmed first.

4.2 Invoices without a purchase order

An invoice without a purchase order is approved by the cost-centre owner, never by the person who entered it.

Every entry drafted by Ask Northbridge must be approved or amended within 24 hours; otherwise it is escalated to the financial controller. The assistant never posts, releases or pays on its own.
