Supplier Bank Account Change Policy

Document	POL-SEC-004
Version	v2.0
Effective from	1 July 2026
Owner	Vikram Nair (financial controller)
Approved by	Finance director
Status	Approved

1. Purpose

A changed bank account is the most common route for payment fraud. This policy sets the checks before any payment goes to a supplier's new account.

2. The four checks

A supplier bank account change needs a call-back to the number on file, a Rs.1 test credit, the financial controller's approval and a 24-hour hold before the first payment. The request is made on form FRM-SEC-02.

3. E-mails about bank details

E-mails asking to change bank details are never acted on directly; they are forwarded to security@northbridgecycles.example. This applies even when the e-mail appears to come from a known supplier.
